Work Experience

October 2021 – Current

Molabo GMBH - München, DE

Working Student - Embedded Engineer

- Development of VHDL Modules for FPGAs
- Development of C- Code for Microcontrollers
- Supervision and development of the team's CI Pipeline (Jenkins), Build Systems (CMake and Make), Testing (gTest) and Toolchains (Jenkins + Dockers) related to SW and HW development.

2021 August - September

Molabo GMBH - München, DE

Embedded Software Engineer

Summer Internship at Molabo GMBH, where I was responsible for unit-testing automation, code coverage, toolchain/build system development of their Embedded Drive Controller's Software.

2021 April - Today

TU München

Tutor - Embedded Systems Programming Lab

This course takes place within the Electrical Engineering Bachelor at TUM with a focus on creating FreeRTOS applications in C. My Job consist of assisting the students during their course work and their final project delivery. This goes from code review, bug fixes to orientation on RTOS design.

2020 Oct. - 2021 Feb.	TU München Research Internship Working with Google's Edge Coral TPU at the Real-Time Computer Systems Department at TUM. The format of the work is as a research internship within the ECE Masters of TUM. My role consisted of benchmarking Coral's performance on the inference of several Machine Learning Models.
2019 Aug. - 2019 Dec.	TU München Internship I was a Research Intern under a PhD Candidate at the Chair of Communication Networks within TUM, where I was responsible for testing, debugging and analyzing the behavior of a software switch implemented using the P4 programming language.

Education

2020 Oct. - Today	M.Sc - TU München Electrical and Computer Engineering
2017 Feb. - 2020 Sept.	B.Sc. - TU München Electrical and Computer Engineering • GPA: 2.2 in German Grading Standards • Bachelor Thesis: 1.3 - Netlist Error Modeling - SEC
2016 Feb. - 2017 Jan.	B.E. - Hochschule Furtwangen University (Exchange Year) Electrical Engineering
2013 Jan. - 2015 Dec.	B.Sc. - PUC-RIO (RJ, Brazil) (Unfinished) Electrical Engineering • 144 of 238 Credits Completed • Top 5% of the Department, GPA 7.5/10 in Brazilian Grading Standards
2010 – 2012	High School Diploma - Colegio Santo Inacio Brazilian High school in Rio de Janeiro, Brazil.
2001 - 2010	Middle School Diploma - Our Lady of Mercy School American Middle School in Rio de Janeiro, Brazil.

Skills and Certificates

Programming Languages	• C (advanced) • C++ (intermediate) • Python (intermediate) • Bash, POSIX Shell Scripting (advanced) • VHDL (basic-intermediate) • Tcl Scripting (basic-intermediate)
Paradigms/Frameworks	• Real Time Operating Systems (FreeRTOS) • Contiki-OS
Tools	• GNU Makefile • CMake • Git • GDB • Linux • Docker / Dockerfiles • Jenkins / Jenkinsfiles / Pipelines / CI / CD • Unit-Testing, Functional-Testing with gTest and PyTest
Certificates	• UT Austin: Embedded Systems - Shape the World: Microcontroller I/O • UCSD: Data Structures Fundamentals • C1 Goethe Zertifikat • TestDaf Zertifikat
